

ESTIMATION OF BUSINESS EXPENSES

I'm M.Adithiya, group leader of three members K.Ajitha, G.Ashwini, M.Arul Uthaya Muthu Maharaja.

I'm here to explain our project Estimation of business expenses.

Empathy map

Here's the first slide that shows the empathy map of Estimation of business expenses. This slides tells about what people say? What they thought? What they do? And What they they feels?

Brainstorming

Next,this Brainstorming slide shows us what are the challenges that entrepreneurs might face and how they might approach them. This slides consists our group ideas and a graphical representation for feasible and important ideas.

Dashboard 1:Expenses Breakdown

Now, let's see the dashboard slide Expense Breakdown. It gives vast insights into diverse business costs by using Bar Chart, Bubble Chart and Graph.

Dashboard 2: Business Expenditure Overview

Let's see the next dashboard which explains the Business Expenditure Overview of comparison table of contract labour vs Employee, Graphical representation of transportation and warehousing and Piechart of fuels and Advertisement.

Dashboard 3: Expenses Insight

Right Now let's move to the dashboard slide which shows the expense insights by using Piechart, Bar Chart, etc.,

Story 1: Expenses_1

Next to the dashboard, let's move to story slide. Our first story slide Expenses_1 which gives the data information one by one neatly.It consists of Annual PayRoll, comparison, Equipment cost and Rental.

Story 2: Expenses_2

Same as the first story, this second story slide Expenses_2 also shows the complete clear view of data. It gives the overview of expenses of transportation, taxes and licenses, fuel and employment cost ,Expenses Toy and Maintenance.

These are the dataset that our project consists of.

Thank you
